

**ANJUMAN COLLEGE OF ENGINEERING AND TECHNOLOGY  
DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING**

**OMNET++ SYLLABUS**

**SUBJECT :- COMPUTER NETWORK SEMESTER :- 6<sup>TH</sup> Section :- A & B**

- 1) To study network simulator (OMNETT++).
- 2) To create a simple module having sub-module and show message passing between them in omnet++.
- 3) To improve the graphics and add a debugging message to the module.
- 4) To add a delay of 100ms in the module and add a counter that terminates the message passing after reaching zero.
- 5) To create a .ned file for complex networks having more than sub-modules in omnet++.
- 6) To create a source file for complex networks having more than sub-modules in omnet++.

Faculty Incharge  
  
Prof. Anwarul Siddique  
CSE Deptt.

Resource Person  
Mr. Somil Deshmukh  
Senior Executive  
Persistent systems pvt. Ltd.

**M. S. Khatib**  
Associate Professor & Head  
Computer Sci. & Engg. Dept.  
Anjuman College of Engg. & Tech.  
Sadar, Nagpur-440001.
