Department of
Civil
Engineering

From HOD'S DESK

**Engineering is more than problem-solving,
it's the craft of building solutions that
transform our world.**

Dr. Rashmi G. Bade
HEAD, CIVIL ENGINEERING,
DEPARTMENT

On behalf of the Civil Engineering Department at Anjuman College of Engineering & Technology, I take great pride in representing this esteemed branch.

Civil Engineering is one of the oldest and most vital branches of engineering. In today's rapidly urbanizing world, the development of cities and towns is accelerating, which in turn plays a crucial role in shaping the nation's growth. As a result, there is a growing demand for highly competent and qualified Civil Engineers who can meet the challenges of modern infrastructure development.

At Anjuman College of Engineering & Technology, the Civil Engineering Department boasts a team of highly qualified faculty members with vast teaching and industrial experience. Our faculty members have strong academic backgrounds, many having associations with premier institutes like the NITs. The department is equipped with state-of-the-art laboratories and advanced software tools, ensuring that our students receive the best education and practical exposure.

We strive to develop our students to be successful professionals who can excel both in academia and industry. Our students consistently perform well in university examinations, as well as in various competitive exams such as GATE, MPSC, UPSC, and Indian Railways. We also encourage our students to pursue entrepreneurship, and some of our alumni have gone on to become successful entrepreneurs.

Our students shine in various fields. For instance, in the RTM Nagpur University examinations, students from our department have achieved remarkable success.

As the Head of the Department, I have high expectations for my students. I believe they are capable of becoming successful, responsible, and committed professionals. I wish them all the best in their endeavors and look forward to seeing them achieve great success in their careers.

Best wishes for a bright future!
